

# *P B i S* *Problem Solving*

- Do we have a problem?***  
***(Identify the primary problem)***
- What is the precise nature of the problem?***  
***(define, clarify, confirm/disconfirm inferences)***
- Why does the problem exist and what should we do about it?***  
***(hypothesis & solution)***
- What are the actual elements of our plan?***  
***(Action Plan—what we will do, who will do it, when it gets done)***
- Is our plan being implemented?***  
***(evaluate & revise plan)***
- Is the plan having the desired effect?***  
***(maintain, modify or terminate the plan)***

## ***Precision Statement/Hypothesis***

- ***What behaviors are problematic and how often are they occurring?***
- ***Where are the behaviors occurring?***
- ***When are the behaviors occurring?***
- ***Who is contributing to the behaviors?***
- ***Why might the behaviors be occurring/sustaining?***

**Behavior Support is the redesign of environments, not the redesign of individuals**
